

# know

Natural gas is the cleanest burning transportation fuel available today. AGL's Dr Hien Ly is one of the world's respected technical experts in natural gas vehicles. Hien and AGL have an ongoing commitment to contribute to the development of greener fuels for the future.

# how

Quieter, cleaner and economic to run, natural gas buses are changing the face of public transport and improving urban air quality for Sydney. From two buses on trial in 1989, today the NSW State Transit Authority's fleet has expanded to 404 buses, with plans for hundreds more, making it one of the world's largest natural gas bus fleets.
